We are pleased to present to the people of the Manning Valley, and researchers everywhere, the most up to date, concise and best presented record of W T Howard Funerals, who have been operating in the Manning Valley since October 1922.
The included dates on this CD are from October 1922 to November 1986.

From a very small, dedicated group of people, this record has taken a countless amount of time and effort to compile, and will be of tremendous value to family researchers.

This represents one of a great many projects that Taree Family History Inc have, or are compiling, to greatly improve the research facilities that are presently available.

Happy Researching

Elaine McCutcheon

President
Taree Family History Inc
